

**Streamline event operations and boost attendee engagement with an easy-to-use app that integrates with MC Professional.**

## Simplify Attendee Data

Save time and reduce duplication of effort by syncing your MemberClicks AMS attendee list with Conference App. The integration automatically pushes registrant information into the app, ensuring your Attendee Directory is populated and attendee-only areas are secured. And if you have last-minute changes to registrants in your AMS, no problem - your data syncs daily and can also be pushed over at any time with the click of a button.

## Empower Your Eventgoers

Allow members to customize their conference experience through personal itineraries and event details like schedule, venue maps and educational sessions. Plus, encourage meaningful feedback with survey tools and networking with in-app messaging.

## Save Money & Go Green

Event materials can cost thousands of dollars. Reduce waste and save money by lowering the number of printed materials needed at your events. You can provide detailed info about your event and even give sponsors and exhibitors their own profile pages all within the app.
