+ Personify[®] Job Board

Drive membership, generate non-dues revenue and provide career opportunities for your members and industry by hosting your own job posting platform.

Immediate Results for Employers

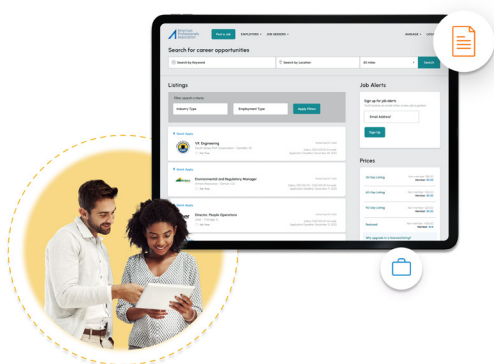

Jobs are automatically displayed on the board within seconds of posting, so employers instantly see value. Plus, employers can browse the resume bank to find qualified candidates and reach out directly.

South Jersey Port Corp.

Full-Time

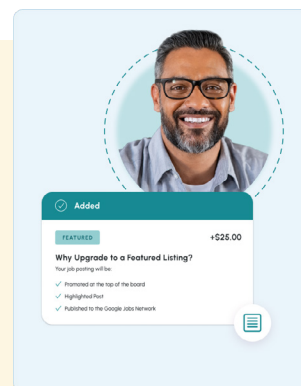

Easy Administration

Once you set up Job Board, you as the administrator can be completely hands-off. Let the platform do the work for you, facilitating connections between jobseekers and employers. All you have to do is watch the non-dues revenue roll in!

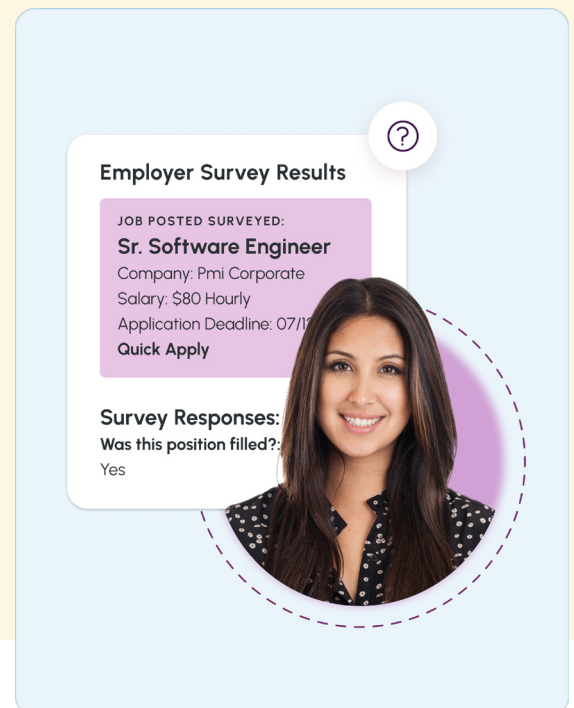

Zero Upfront Cost + Non-Dues Revenue

Job Board does not require any setup fees, and functions as a revenue share partnership. You determine the cost to post a job (with options to offer multiple rates/discounts and featured listings), and then your association will receive a percentage of the revenue generated through your job board.

What Can You Do With Job Board?

- ✓ Build a job board that showcases attractive opportunities in jobseekers' specific fields that are more likely to align with their criteria and advance their careers.
- ✓ Offer pricing based on Member Type set up in MC Professional.
- ✓ Earn more revenue from posters who value the attention of high-quality candidates in your audience.
- ✓ Let the integration between MC Professional and Job Board do the work for you - when a job poster pays extra to have their post promoted to your database, Job Board can pull email contacts directly from MC Professional.
- ✓ Enable automatic sharing of jobs on Facebook, LinkedIn and email with the click of a button.
- ✓ Allow candidates to post their resumes, while giving employers with job posting permission the opportunity to view the collection of resumes.
- ✓ Ensure responsiveness on all screen sizes for a seamless experience on any device.
